Why Choose LogiNext for Food and Beverage Logistics?

200+
Enterprise Clients worldwide across 6 industry verticals

11+
Regions available across APAC, Middle East, Europe and North America

78+
Countries with operations

10+ Mn
Shipments processed per day

34+ Bn
Tracking points captured for geocoding

Industry Challenge
Need for real-time tracking for customers

Solutions Offered
We offer real-time tracking of delivery vehicles, ensuring customers can monitor their orders accurately.

Outcome
95% improvement in customer satisfaction

Industry Challenge
Need for advanced route planning and optimization

Solutions Offered
Real-time route optimization and dynamic rerouting for on-time deliveries.

Outcome
28% reduction in delivery times

Industry Challenge
Temperature control monitoring

Solutions Offered
Get temperature control monitoring for perishable food items, maintaining quality throughout the delivery process

Outcome
63% reduction in food wastage in the supply chain

Industry Challenge
Removal of data silos and operational bottlenecks

Solutions Offered
Seamless integration with existing systems such as ERP and CRM software, streamlining operations and enhancing productivity

Outcome
48% faster order fulfillment

Industry Challenge
Driving repeat business

Solutions Offered
Our comprehensive features and reliability improve customer satisfaction, driving repeat business and positive reviews.

Outcome
27% improvement in revenues

Industry Challenge
Efficient load planning

Solutions Offered
Using load planning optimization, we maximize vehicle capacity while minimizing empty space, reducing fuel consumption and carbon emissions

Outcome
26% improvement in vehicle utilization

Industry Challenge
Reducing delivery costs

Solutions Offered
Using efficient routing and resource allocation led to cost savings for food and beverage businesses, improving profitability.

Outcome
23% reduction in transportation

Industry Challenge
Need for dynamic dispatching

Solutions Offered
Dynamic dispatching allows businesses to adapt to changing delivery demands and unforeseen circumstances in real-time

Outcome
32% improvement in fleet utilization

Industry Challenge
Driver performance monitoring

Solutions Offered
Monitor driver performance, including schedule adherence, driving behavior, and customer interactions.

Outcome
37% decrease in overtime costs due to improved driver productivity

Industry Challenge
Operational visibility

Solutions Offered
Live screen and control tower for the dispatcher. Real-time tracking of shipments to provide customers with accurate delivery updates.

Outcome
100% transparency in operations

Industry Challenge
Analytics and reporting

Solutions Offered
We provide advanced analytics and reporting functionalities for performance evaluation and data-driven decision-making for continuous improvement.

Outcome
85% improvement in operations
