Did you know?

Switching to electronic Proof of Delivery can reduce delivery errors by up to **60%** and cut administrative costs by nearly **40%**, while boosting customer satisfaction scores by over **30%**..

Industry Challenge:

Faster Dispute Resolution

Solution offered

LogiNext electronic proof of delivery captures time, photo, location and signatures, resolving disputes in minutes.

Outcome

Industry Challenge

Enhanced Customer Experience

Solution offered

The software provides real-time delivery notifications and live status updates. This helps customers know when and where the order will arrive.

Outcome

Industry Challenge

Reduced Operational Costs

Solution offered

With digital proof of delivery, printing, storing or manual data entry becomes redundant.

Outcome

Industry Challenge

Improved Compliance & Record-Keeping

Solution offered

LogiNext ePOD securely stores all the records on cloud, which is accessible on demand.

Outcome

Industry Challenge

Real-Time Visibility for Stakeholders

Solution offered

ePOD integrated with TMS and fleet tracking, provides live updates for dispatchers and customers.

Outcome

Industry Challenge

Assurance of Accuracy

Solution offered

The software ensures the right package reaches the right address and person. Every wrong/delayed delivery will create an unhappy customer.

Outcome

Industry Challenge

Analytics & Insights

Solution offered

LogiNext's digital proof of delivery system provides actionable data to track delivery efficiency, identify bottlenecks and continuously improve.
