crash-free rate

Did you know?

Businesses using courier delivery software report an **ROI increase of 3X** within the first year of implementation.

Industry Challenge:

Instant Tracking and Alerts

Solution offered

Customers receive real-time updates on their delivery status via SMS or email notifications

Outcome

15%

Increase in on-time deliveries

Industry Challenge

Digital Proof of Delivery

Solution offered

The software supports digital signatures, barcode scanning and photo capture at delivery time.

Outcome

40%

Reduction in delivery disputes and chargebacks.

Industry Challenge

Automated Dispatch and Assignment

Solution offered

The software evaluates factors such as location, workload and delivery priority to assign tasks to the most suitable driver.

Outcome

25%

Increase the number of deliveries completed per driver per day by 25%

Industry Challenge

Data Management

Solution offered

Our courier delivery software ensures end-to-end encryption and GDPR-compliant data handling.

Outcome

40%

Improvement in regulatory compliance

Industry Challenge

Driver Capacity

Solution offered

Route optimization and automation helps to cover more shifts, without adding to fleet size.

Outcome

30%

Increase in driver capacity.

Industry Challenge

Operational Costs

Solution offered

Reduced manual work, paper use, and fuel consumption lead to significant overall cost savings.

Outcome

40%

Reduction in operational costs

Industry Challenge

Customer Satisfaction

Solution offered

Courier delivery software provides real-time updates, transparent communication and faster deliveries.

Outcome

25%

improvement in customer satisfaction

Industry Challenge

Faster Billing and Invoicing

Solution offered

The software supports instant confirmation, reducing delay in the payment cycle.

Outcome

30%

Improvement in the speed of billing and invoicing

Industry Challenge

Demand Forecasting

Solution offered

The software powered by AI & ML anticipates demand spikes during festivals, promotions, or weather events.

Outcome

35%

Improvement in demand
