Did you know?

Transportation management software (TMS) can **reduce manual workload by up to 30%**, freeing up teams to focus on strategic logistics planning.

Industry Challenge

Freight Costs

Solution offered

LogiNext's TMS optimizes carrier selection, consolidates shipments, reduces empty miles, and reduces expenses.

Outcome

Industry Challenge

Visibility and Real-Time Tracking

Solution offered

LogiNext's TMS with real-time tracking reduces delays, improves communication and allows problem solving.

Outcome

Industry Challenge

Operational Efficiency

Solution offered

The software automates several time-consuming processes, including load planning, carrier selection and invoice auditing.

Outcome

Industry Challenge

Fuel and Maintenance Costs

Solution offered

The software helps optimize routes, reducing fuel consumption and wear on vehicles.

Outcome

Industry Challenge

Compliance and Risk Management

Solution offered

LogiNext TMS automates compliance, tracks insurance, monitors drivers, and predicts risks, preventing fines and disruptions.

Outcome

Industry Challenge

Data-Driven Decision Making

Solution offered

The software provides valuable insights through advanced analytics.

Outcome

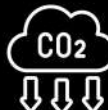

Industry Challenge

Scalability

Solution offered

The software grows with your company, handling increased shipment volumes without added labor costs

Outcome

Industry Challenge

Sustainability

Solution offered

LogiNext's TMS promotes eco-friendly practices by optimizing routes, reducing fuel consumption, and cutting emissions.

Outcome

Industry Challenge

Return on Investment (ROI)

Solution offered

Investment in the software yields cost savings, efficiency gains, and enhanced customer satisfaction.

Outcome

Industry Challenge

Customer Satisfaction

Solution offered

The software improves service, reduces errors, boosts delivery, strengthens relationships, and increases profitability.
